

Continuing with MISHC: Value and Return on Investment

Financial value

- Continued BCBSM clinical data abstraction and reporting resources
- Continued VBR opportunities
- Shared quality infrastructure that individual sites do not need to build alone

Clinical value

- Better understanding of clinical and patient-reported outcomes
- Support for multidisciplinary Heart Team care
- Identification and dissemination of best practices
- Focused initiatives designed to improve care and outcomes
- Invitations to MISHC meetings featuring national speakers
- Educational opportunities, including learning about cutting-edge procedure types and variables from national leaders

Operational value

- Reports, audits, data review, and quality-improvement support
- Standardized measurement and benchmarking
- Assistance interpreting and responding to changing requirements
- A sustainable forum for site coordinators, clinicians, and leaders

Strategic value

- National and statewide benchmarking
- Readiness for evolving CMS and CED requirements
- Support for public reporting and payer expectations
- Evidence for program planning and leadership decisions
- A collective voice in shaping structural heart quality across Michigan
